

MEMORANDUM FOR: Director of Central Intelligence

VIA : Deputy Director of Central Intelligence

FROM : Deputy Director for Operations  
General Counsel  
Legislative Counsel

SUBJECT : Parking

1. Action Requested. That you approve the recommendation in paragraph 5.

2. Background. In accordance with the Office of Management and Budget Circular on Federal Employee Parking Facilities, CIA is preparing regulations to become effective 1 November which will implement the President's policy that parking fees be imposed at most federal government facilities. We believe that it is the clear intent of the President not to undermine CIA cover and security requirements, thus the Circular must be construed in a manner consistent with those requirements. We further believe that you should inform OMB Director McIntyre that you intend to implement the Circular consistent with your statutory authority to protect intelligence sources and methods. Therefore, we propose that Director McIntyre be informed of your intentions by means of the attached letter.

3. It is not intended that this letter be used as a mechanism by which to exempt any Agency employee from parking fees at this time because of cover or security requirements. The Deputy Director for Operations has specifically determined that, under current conditions, the imposition of parking fees would not adversely effect any security or other requirements relating to the cover of any Agency employee. The letter to OMB would, however, reserve the right to exempt an employee from the parking fees if cover or security needs so dictated in the future.

4. Thus, at present the purpose of the attached letter is to signal to OMB that we cannot provide certain information described in the Circular to federal and local agencies as the Circular mandates. Furthermore, as noted above, the attached letter would reserve to you the authority to make adjustments in the parking fee program, should such adjustments be dictated by unforeseen circumstances involving security and cover requirements that might arise at some point in the future.

5. Staff Position.

6. Recommendation. That you sign the attached letter to OMB Director McIntyre.

Washington, D.C. 20505

Honorable James T. McIntyre, Director  
Office of Management and Budget  
Washington, D.C. 20503

Dear Mr. McIntyre:

In accordance with Office of Management and Budget Circular A-118, Federal Employee Parking Facilities, my staff is now preparing regulations to take effect on 1 November regarding the imposition of parking fees at CIA installations. The Central Intelligence Agency fully supports the President's initiative to conserve energy; we have for a number of years encouraged the use of public transportation and carpools by Agency employees where such use is consistent with cover and security considerations.

I will implement the Circular to the fullest extent possible consistent with my statutory responsibility to protect intelligence sources and methods. Some divergence from the Circular will be necessary in cases where imposition of parking fees would be inconsistent with the maintenance of cover or security of Agency facilities and personnel. It will, for example, not be possible for me to supply for forwarding as called for by subparagraph "d" the reports called for in paragraph 14 of A-118. To make such reports available would conflict both with my statutory responsibility for the protection of intelligence sources and methods and with section 6 of the CIA Act of 1949.

My position in this matter is mandated by my responsibilities under statute and Executive Order 12036. It is fully consistent both with the President's concern for the maintenance of an effective intelligence establishment and with the terms of A-118, which has been issued under authority of the Federal Property and Administrative Services Act, as amended (40 U.S.C. 490) which specifically provides that "nothing in this Act shall impair or affect any authority of ... the Central Intelligence Agency."

I again offer my assurances that the Central Intelligence Agency fully supports the President's energy conservation program and will implement the policy on Federal employee parking to the fullest extent practicable.

Yours sincerely,

STANSFIELD TURNER
